DETAILED ACTION

Applicant's election without traverse of Species a with readable claims 3-12 and 19-24 in the reply filed on 1-30-2008 is acknowledged. Non-elected claims 13 and 25-27 have been withdrawn from further consideration.

This application is in condition for allowance except for the following formal matters:

Claims 4 and 12 are objected to for the reason that the recitation of "the imaging engine" on line 2 of each of the claims lacks proper antecedent basis. Appropriate correction is required.

Claims 3, 5-11 and 19-24 distinguish over the prior art of record and thus are allowed.

Claims 4 and 12, if revised to overcome the above objection in applicant's response to this Office action, would also be allowed.

The following is an Examiner's statement indicating allowable subject matter:

With respect to claim 19, the overall structure of an imaging apparatus as claimed including particularly a frame configured to provide a path between an imaging position and a storage position in the frame for the media carrier and a transport mechanism capable of moving the media carrier along the path between the imaging position and the storage position is not taught nor suggested by the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
